

**Who we serve**

1612 children

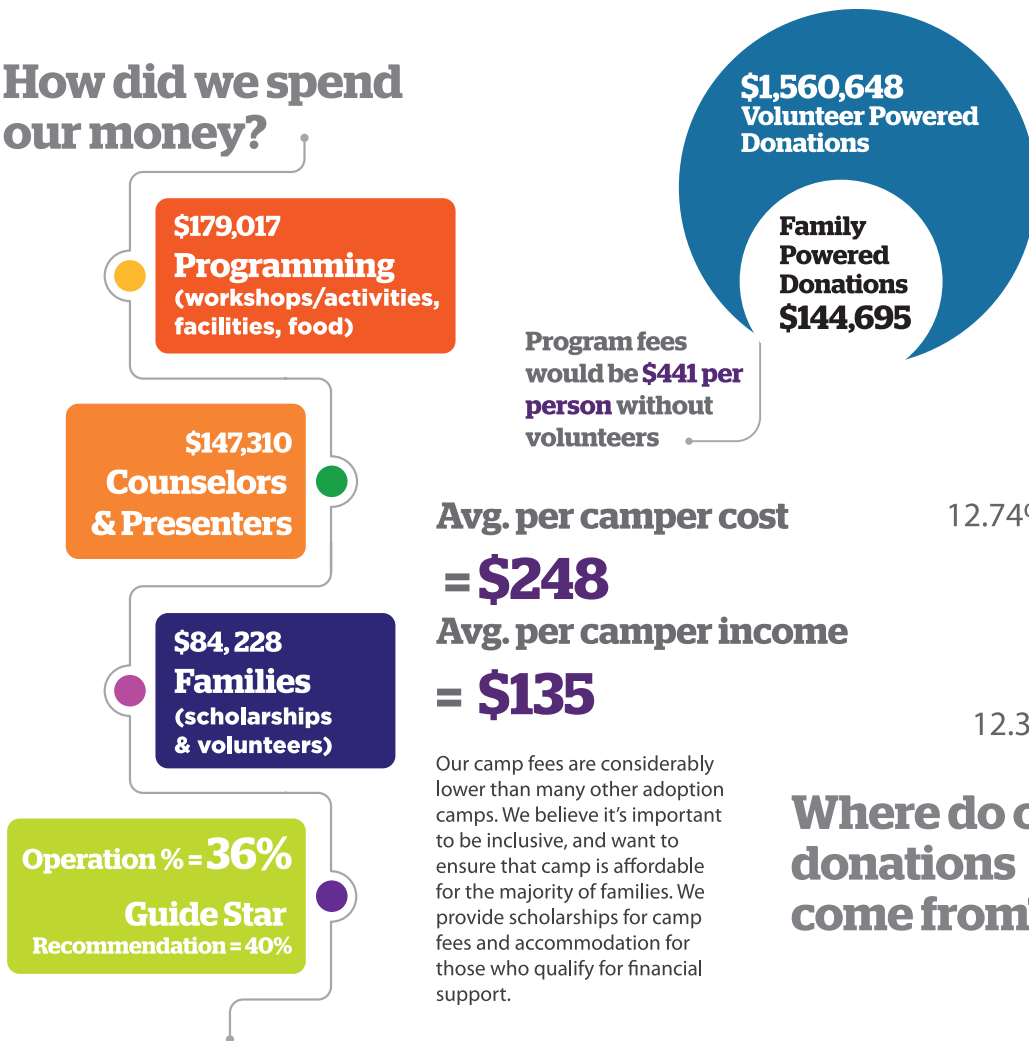

We focus on supporting international and domestic adoptive families, including adopted children, parents, non-adopted siblings, and extended family. Additionally, our camps are a resource for foster parents and waiting parents.

... from 41 birth countries, 46 states + D.C.

Whether families have adopted internationally or domestically, HCAF helps them become part of a larger community "just like themselves," with shared experiences, challenges, and opportunities. At our heritage camps, we connect adoptive families with authentic cultural experiences, providing positive representations that affirm the inherent worth of a child's birth culture.

**How did we spend our money?**

**Avg. per camper cost = \$248**

**Avg. per camper income = \$135**

Our camp fees are considerably lower than many other adoption camps. We believe it's important to be inclusive, and want to ensure that camp is affordable for the majority of families. We provide scholarships for camp fees and accommodation for those who qualify for financial support.
